U.S. DEPARTMENT OF AGRICULTURE
Statistical Reporting Service
Crop Reporting Board
Released July 21, 1967
1300-A Main P.O. Bldg., Chicago, Ill. 60607

Revised ice cream estimates, by states, for January-May 1967 are shown on page 5. Enumerated data for 1966, by states and months, will be available about July 28 in annual release "Production of Manufactured Dairy Products" which may be secured upon request to this office. All U.S. totals include production in Alaska and Hawaii.

Production of ice milk in the United States in June was estimated at 30,760,000 gallons. This is 5 percent larger than the enumerated total in June 1966 and 27 percent greater than the 1961-65 average for the month. Aggregate output through June this year was up 8 percent from the first half of 1966 and 31 percent from the 5-year average.

The seasonal gain this year from May to June of 19 percent compares with 20 percent at this time in 1966 and 15 percent in the 1961-65 period. Seasonal advances occurred in all regions. Sharpest gains were recorded in the Atlantic Regions and the East North Central.

June production was larger than a year earlier in all regions except the North Atlantic and the West. The increase was particularly sharp in the East North Central Region.

SHERBET PRODUCTION

Sherbet production in the United States was 5,645,000 in June - 5 percent less than in June 1966, but 6 percent more than the 1961-65 June average. Total output at mid-year was off 1 percent from the January-June total in 1966, but was up 11 percent from the 5-year average.

Seasonally, production gained 22 percent from May to June. This compares with 25 percent at this time in 1966 and 15 percent on the average in the previous 5-year period. All regions showed strong seasonal gains except the Pacific, where the advance was moderate.

Compared with June 1966, output increased in the West North Central Region. Decreases occurred in all other regions.

1/Revised January - May.

U.S. production of Mellorine and other frozen desserts made with fats and oils other than milkfat in June, of 5,825,000 gallons, is 2 percent more than in June 1966 and 9 percent larger than the 1961-65 average for the month. Output in the first half of this year is up 3 percent from the corresponding period of last year and 7 percent from the 5-year average.

The seasonal advance from May to June of 11 percent compares with 18 percent a year ago and the average of 8 percent in the 1961-65 period. All producing states showed gains except Alabama, Montana and California.

Compared with June 1966, production was less in Missouri, Alabama and California. Increases occurred in all other Mellorine-producing states.

WATER ICE PRODUCTION

Water ice production in the United States during June was estimated at 6,225,000 gallons. This is 7 percent less than in June 1966, but 6 percent more than the 1961-65 average for the month. Total output through June this year was up 1 percent from the first half of 1966 and 12 percent from the 5-year average.

Production jumped 33 percent from May to June, compared with 38 percent at this time in 1966 and 16 percent on the average in the 1961-65 period. Output advanced sharply in all regions except the West.

Compared with June 1966, production decreased in all regions of the country. The North Atlantic States showed the sharpest loss.
